

Rotary Lobe Pump for Fuel Transfer

This rotary lobe pump is designed for gasoline and gas transfer applications. It features a robust construction with flanged connections for secure installation.

Product Overview

High-Performance Rotary Lobe Pump

This rotary lobe pump is engineered specifically for the safe and efficient transfer of gasoline and other fuels. Featuring a robust construction, it is built to withstand the demands of industrial and commercial fuel handling systems. The inclusion of flanged connections ensures a secure, leak-proof installation for reliable long-term operation.

Application & Suitability

Primary Applications

Gasoline Transfer, Fuel Handling Systems, Industrial Use, Commercial Use

Technical Features

Build Quality

Robust Construction • Industrial Grade

Connection Type

Flanged

Pump Mechanism

Rotary Lobe
