Product Overview

Professional Rotary Polishing Machine Pad

This premium backing pad is engineered for high-performance surface finishing and polishing tasks. Constructed with a durable 12mm PU base, it features a reliable hook-and-loop system for quick and secure accessory changes. Designed for versatility, these pads are compatible with various thread specifications and machine sizes, making them an ideal choice for automotive detailing and metal refinement.

Technical Specifications

Dimensions and Compatibility

Item NO	Size	Thread	Max RPM
3002044	8"	5/8"-11	6650
3002032	8"	M14	6650
3002031	7"	5/8"-11	8500
3002043	7"	M14	8500
3002042	6"	5/8"-11	10200
3002093	6"	M14	10200
3002055	6"	M10	10200
3002041	5"	5/8"-11	12250
3002029	5"	M14	12250
3002054	5"	M10	12250
3002040	4.5"	5/8"-11	13300
3002028	4.5"	M14	13300
3002039	4"	5/8"-11	15300

Material & Construction

Material Composition	Polyurethane (PU)
Pad Thickness	12 mm
Fastening Type	Hook and Loop

Logistics

Minimum Order Quantity	300
