Product Overview

Professional Soil Preparation Solution

This robust rotary tiller is designed for high-efficiency soil preparation in both dry land and paddy fields. Featuring a durable frame and reliable transmission structure, it integrates seamlessly with tractors ranging from 18 to 120 horsepower. It is engineered to minimize labor costs and save time, providing a consistent tillth essential for modern agricultural productivity.

Technical Specifications

Tractor Compatibility

18 hp

Minimum Power

120 hp

Maximum Power

Field Suitability

- Dry land cultivation
- Paddy field preparation

Transmission System

Side Gear Transmission, Side Chain Transmission

Compliance and Safety

Certifications

CE

Operational Safety

- Warning labels for rotating knives
- Protective safety guards
- Secure transport chain
