

Rotary Vane Transfer Pump

This rotary vane pump is designed for gasoline and gas transfer applications. Its robust cast iron construction ensures durability and a long service life.

Product Overview

High-Performance Rotary Vane Transfer Pump

This rotary vane pump is specifically engineered for efficient gasoline and gas transfer applications. Constructed from robust cast iron, it is built to withstand demanding industrial and commercial environments while ensuring long service life. The design prioritizes consistent flow rates and reliable performance, making it an ideal solution for professionals requiring dependable fluid handling equipment.

Technical Specifications

Key Features

- Robust cast iron construction
- Consistent flow performance
- Designed for easy installation
- Low maintenance requirements

Origin

Made in Italy

Nameplate Parameters

Parameter	Description
GIRI/1'	Rotational Speed
HP	Horsepower
BAR	Pressure
LITRI/1'	Flow Rate

Construction Material

Cast Iron

Suitable Applications

Gasoline Transfer, Gas Transfer, Industrial, Commercial
