Overview

High-Visibility Mining Warning Solution

This heavy-duty rotating LED warning light is specifically engineered for the rigorous demands of mining and industrial environments. Featuring a dual-voltage system compatible with both 12V and 24V power sources, it provides a reliable, high-intensity signal to enhance site safety. Its robust construction ensures consistent performance in challenging outdoor conditions.

Technical Specifications

Operating Voltage

12 V

DC Low

24 V

DC High

Waterproof Rating

IP56

Construction & Materials

Materials

- PS (Polystyrene) Cover
- Rubber Base

Connection

Two wires

Dimensions

Product Dimensions

Dimension Type	Measurement
Height	222 mm
Base Diameter	240 mm
Top Diameter	220 mm

Commercial Terms

Warranty	12 months
Payment Terms	30% Deposit, 70% Before Shipment, T/T
Trade Terms	FOB Shenzhen Port
Delivery Time	Within 30 days after deposit
