

Rotavator Case Bearing for DH246F Cultivators

This case bearing is designed for DH246F heavy plus rotavators. It ensures optimal performance and longevity in demanding soil preparation tasks.

Product Overview

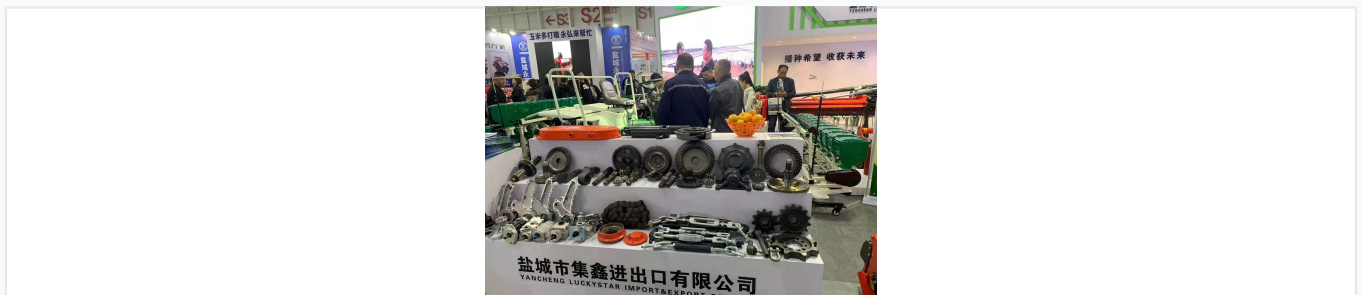

Professional Rotavator Case Bearing

This premium right-hand (RH) case bearing is precision-engineered for use with DH246F Heavy Plus rotary cultivators. Designed for demanding agricultural soil preparation tasks, this component ensures smooth mechanical operation, reduced vibration, and extended service life. It provides the durability required for intensive farming environments and reliable performance in the field.

Compatibility

Compatible Cultivator Models	DH246F Heavy Plus
------------------------------	-------------------

Technical Specifications

Precision-engineered right-hand case bearing for reliable heavy-duty operation.

Positioning	Right Hand (RH)
Application	Rotavator Case Bearing

Supported Series

Comprehensive set of high-durability components designed for optimal performance in rotary cultivators.

Supported Agricultural Equipment

- Rotary tillers
- Variable-speed paddy field stubble-bury beaters
- Foldable paddy field stubble-bury cultivators
- 1GD-350 type paddy field ridge shapers
