

Rotavator Cover Case Bearing for Dh246f Heavy Plus

This cover case bearing is designed for Rh Rotavator systems. It is an ideal spare part for Dh246f Heavy Plus models.

Product Overview

Precision Engineered Bearing for Rotary Cultivators

This high-quality cover case bearing is specifically designed for integration into RH rotavator systems, notably the Dh246f Heavy Plus model. It serves as a vital component for soil preparation machinery, providing the necessary support and protection for internal parts to ensure longevity. Engineered for seamless performance, this spare part helps maintain the efficiency of your agricultural equipment during intensive cultivation tasks.

Compatibility

Supported Machinery	Dh246f Heavy Plus, RH Rotavator
