

Rotavator Cover Seal for DH246F Heavy Plus

This cover seal is designed for DH246F Heavy Plus rotavators. It ensures optimal sealing and protection for rotary cultivators.

Product Overview

Precision Engineering for Cultivators

This high-quality cover seal is designed specifically for DH246F Heavy Plus series rotary cultivators. It serves as a vital component for ensuring optimal sealing and protection of internal mechanisms, which is essential for maintaining performance in demanding agricultural environments. Built for durability, this spare part helps extend the operational lifespan of your machinery while minimizing field downtime.

Compatibility & Application

High-quality replacement parts engineered for DH246F Heavy Plus compatibility.

Compatible Machine Model	DH246F Heavy Plus
Component Type	Rotavator Cover Seal
Best For	Soil Preparation, Cultivation, Heavy-duty Agricultural

Technical Specifications

Compatible Machinery Series

- Rotary tillers
- Variable-speed paddy field stubble-bury beaters
- Foldable paddy field stubble-bury cultivators
- 1GD-350 paddy field ridge shapers
