

Round LED Ceiling Light

This round LED ceiling light is designed for recessed installation in residential or commercial spaces. It features a diffused lens for even light distribution and a compact design.

Product Overview

Versatile LED Illumination

This round LED ceiling light is designed for seamless integration into both residential and commercial environments. Featuring a sleek silver trim and an integrated heat sink, it offers a professional aesthetic alongside reliable thermal management. The diffused lens ensures even, energy-efficient light distribution, making it an ideal choice for general lighting applications in various ceiling types.
