Product Overview

Ultrathin LED Ceiling Lighting

This ultrathin, die-cast LED ceiling light offers a sleek and modern solution for both residential and commercial interior lighting. Engineered with high-quality aluminum for superior heat dissipation and a fire-proof PC cover, it ensures durability and stable performance. With a high color rendering index and multiple wattage options, this fixture provides uniform, energy-efficient illumination suitable for various ceiling installations.

Technical Specifications

IP Grade

IP20

Input Voltage

AC85-265V / AC185-265V

Frequency

50 Hz

Color Temperature

3000K, 4000K, 6000K

Dimmable

No

Warranty

3 years (36 months)

Materials & Performance

Body Material

Aluminum + Fire-proof PC

Working Temperature

-20 to +50 Celsius

Color Rendering Index (CRI)

80 Ra

Model Comparison
