

Round LED High Bay Light

This round LED high bay light is designed for industrial and commercial applications. It features a circular array of LED chips and a central heat sink for efficient thermal management.

Product Overview

Industrial High Bay Lighting Solution

This round LED high bay lighting fixture is engineered specifically for demanding industrial and commercial environments. Featuring a circular array of high-efficiency LED chips, it delivers uniform and bright illumination suitable for high-ceiling installations. The design incorporates a robust central heat sink with radial fins to ensure effective thermal management, promoting long-term reliability and performance in warehouses, factories, and large indoor spaces.

Technical Specifications

Fixture Type	Round LED High Bay
Ideal Applications	Warehouses, Factories, Large Indoor Spaces, Commercial Facilities

Design & Construction

Construction Features

- Durable housing
- High ceiling compatible
- Efficient thermal management

Thermal Design	Radial fin heat sink
Light Distribution	Circular array for uniform coverage
