Product Overview

Smart Retrofit LED Module

This round LED retrofit module is designed for seamless integration into existing ceiling lamps, featuring a built-in microwave motion sensor for automated lighting control. The magnetic mounting system ensures quick, tool-free installation, making it an ideal upgrade for both residential and commercial ceilings. With customizable sensor modes and an optional daylight detection feature, it provides an energy-efficient solution for areas requiring automatic illumination.

Sensor Technology

Operating Modes

Mode	Behavior
ON/OFF Mode	100% brightness on motion, 0% (off) when idle
Full/Dim Mode	100% brightness on motion, 20% standby when idle

Sensor Specifications

20 seconds

Delay Time

10 lux

Daylight Threshold

Daylight Sensor Enabled

Yes

Installation & Design

Mounting Method	Magnetic
Shape	Round

Application & Usage

Business Uses

- Shops
- Offices
- Warehouses
- Storerooms
- Workshops
- Cable ways
- Substations
- Archives

Domestic Uses

Corridor, Cabinets, Hallway, Stairways, Attics, Basement, Warehouse, Closet, Bathroom, Toilet, Children Room

Quality & Warranty

Warranty

2 Years Warranty

Quality Control

Strict sensor function testing and aging test performed on all units
