

Round Link Chain Lock with Fabric Sleeve

This chain lock features round links for enhanced security. It includes a durable fabric sleeve and is available in 8mm and 10mm link diameters.

Product Overview

High-Security Protection for Two-Wheelers

This round link chain lock is engineered for environments with a high risk of theft, making it an ideal security solution for bicycles and motorcycles. It features a robust cylinder with anti-drill, anti-saw, and anti-pick protection to deter unauthorized access. The chain is encased in a durable fabric sleeve to prevent scratches on your vehicle, and it includes a convenient LED-light key for easy operation in low-light conditions.
