Round Metal Flange Forming Machine

This round flange forming machine is engineered to create flanges on round metal parts. It features a robust construction with multiple rollers to ensure accurate and consistent flange formation.

Product Overview

Industrial Precision for Round Components

This round flange forming machine provides a robust and reliable solution for creating consistent flanges on various metal parts. Designed with industrial-grade construction and integrated rollers, it ensures accurate shaping for high-quality output. The unit is equipped with a yellow safety cover and heavy-duty wheels, prioritizing both user safety and operational mobility in the workshop.

Technical Features

Key Features

- Robust steel construction
- High-performance forming rollers
- Integrated safety yellow protective cover
- Mobile design with mounted wheels

Finish

Blue Body • Yellow Safety Elements

Application	Industrial, Metalworking, Flange Forming

Rooms 05–15, 13A/F South Tower, World Finance Centre, Harbour City, 17 Canton Rd, Tsim Sha Tsui, Kowloon, Hong Kong
