

Round Point Shovel with D-Grip Handle

This round point shovel is designed for gardening and landscaping. The D-handle provides a comfortable grip and enhances leverage for efficient digging.

Product Overview

Professional Round Point Shovel

This round point shovel is engineered for professional gardening and landscaping applications. Featuring a durable 1.8mm thick head and an ergonomic ash wood D-grip handle, it provides superior leverage and control for digging and transplanting tasks. The non-slip step and reinforced head design ensure reliable performance in various soil conditions.
