Product Overview

High-Quality Surface Mount LED Panel

This round surface-mounted LED panel light is engineered for both residential and commercial lighting applications, offering a slim profile and a clean white finish. It features an advanced heatsink design for superior heat dissipation and high-quality Light Guide Plate (LGP) technology to ensure uniform, flicker-free illumination. Designed for durability, each unit undergoes rigorous testing to guarantee long-term performance and reliability.

Technical Specifications

Output Current

300 mA

Output Current

Input Voltage Rating

300/300V

Mounting Type

Surface Mount

Service & Customization

Customization Options

OEM Acceptable, ODM Acceptable, Custom Laser Branding

Branding Policy

No quantity restriction for laser printing customer labels

Quality Assurance

Key Design Features

- Thick heatsink for efficient heat dissipation
- High-quality LGP for uniform light distribution
- No facula (spot-free) output
- Long-term quality stress testing
