

RTA52U Diesel Engine Parts

Replacement parts designed for RTA52U diesel engines. Includes cylinder liners, fuel injection valves, and other critical components.

Product Overview

Marine Diesel Engine Components

These precision-engineered spare parts are designed for compatibility with RTA52U diesel engines. With a focus on durability and performance, our components are built to meet the rigorous demands of maritime propulsion systems. Each part is manufactured to ensure precise fitment and long-term reliability for critical engine assemblies.

Key Components

Available Engine Assemblies

- Main bearing
- Cylinder liner
- Lubricating quill with accumulator
- Gland box
- Cylinder cover
- Fuel injection valve
- Starting valve
- Exhaust valve
- Relief valve
- Connecting rod
- Piston
- Piston cooling
- Starting control valve
- Fuel and hydraulic actuator pump
- Fuel injection pump
- Charge air receiver
- Hydraulic pipe
- Fuel pressure pipe
