

Rubber Crushing Machine

This multifunctional crushing machine is suitable for a wide range of materials, including natural and synthetic rubber. It features high output, long blade life, efficient crushing, low speed operation, and adjustable discharge specifications.

ADDITIONAL IMAGES

Overview

High-Efficiency Industrial Rubber Crusher

This multifunctional crushing machine is engineered for versatile material reduction, offering high throughput and exceptional durability. Utilizing a low-speed crushing mechanism, it ensures optimal compression and precise output sizing for a variety of rubber waste. It is a robust solution designed to support industrial recycling and material preparation workflows.

Capabilities

Suitable Materials

Natural Rubber, Synthetic Rubber, Latex Products, Car Tires, Inner Tubes, Soles, Gaskets, Conveyor Belts, Factory Scrap

Operational Features

Performance Highlights

- Low-speed crushing for enhanced efficiency
- Adjustable discharge particle size
- High output capacity
- Extended tool and blade longevity
- Superior compression and crushing effect

Safety Equipment

Emergency Stop • Protective Guarding
