

# Rubber Wheel with Metal Hub

This durable rubber wheel is designed for various applications. It features a robust tire with a tread pattern for enhanced grip and a metal hub assembly with bearings for smooth rotation.

## Product Overview

### Versatile Mobility Solution

This durable rubber wheel is engineered for reliable performance in demanding environments, featuring a robust tire with an integrated tread pattern for superior surface grip. Equipped with a high-quality metal hub and precision bearings, the assembly ensures smooth rotation and consistent mobility. It is an ideal choice for carts, dollies, and various industrial or commercial equipment requiring consistent load-bearing capacity.

## Technical Specifications

### Recommended Applications

- Carts
- Dollies
- Industrial equipment

Tire Size	4.10/3.50-4
Construction	Rubber Tire, Metal Hub, Bearing Supported
