

RV Refrigerator Ventilation Grille

This white plastic ventilation grille is designed for RV refrigerators. It features multiple horizontal slots for airflow and mounting holes for secure installation.

Product Overview

Optimized Ventilation for RV Refrigerators

This high-quality ventilation grille is specifically engineered to ensure optimal airflow for RV refrigerator systems. Constructed from durable, weather-resistant plastic, it is designed to withstand diverse environmental conditions while maintaining consistent performance. The unit features a user-friendly design with a recessed handle area and secure mounting points, making it a reliable choice for professional maintenance and upgrade projects.

Physical Characteristics

Material	Durable Plastic
Color	White
Design Features	Horizontal slots, Recessed handle area, Weather-resistant

Installation

Installation Highlights

- Pre-drilled mounting holes in corners
- Secure and stable attachment
- Easy access design for maintenance

Mounting Type	Corner screw mount
