

Sanding and Polishing Abrasive Set

This set contains various pads, discs, and abrasive materials. It is suitable for general machinery and specialized applications requiring precision surface treatment.

Product Overview

Professional Abrasive Solution

This comprehensive sanding and polishing abrasive set is designed for industrial applications requiring precision surface treatment. The collection includes a variety of pads, discs, and abrasive materials tailored to achieve a perfect finish on general machinery. It is an essential toolkit for professionals seeking consistent quality and efficiency in their surface preparation processes.

Application Details

Included Components

- Sanding Pads
- Polishing Discs
- Abrasive Materials

Primary Applications

General Machinery, Surface Finishing, Industrial Maintenance, Precision Treatment
