Product Overview

High-Performance Satellite Solution

This premium satellite antenna offers exceptional signal stability and high-precision performance, making it an ideal choice for satellite communication and broadcasting needs. Engineered for longevity, the unit features high anti-corrosion properties and superior wind resistance. With versatile mounting options and a customizable design ranging from 30cm to 120cm, it ensures reliable connectivity across diverse environmental conditions.

Technical Specifications

Durability and Stability

- High anti-corrosion resistance
- High wind resistance
- Excellent signal stability
- Accurate elevation adjustment

Quality Standards

ISO 9002 • CNAS • IAF

Dish Size Range	30cm - 120cm
Mounting Configuration	Ground Mount, Pole Mount, Wall Mount
Surface Coating	Polyester Powder Coating
