

Satellite Dish LNB Holder Bracket

This bracket securely holds a standard LNB (Low Noise Block downconverter) on a satellite dish. Constructed from durable materials, it withstands outdoor conditions and allows precise adjustment for optimal signal reception.

Product Overview

Universal Satellite LNB Mount

This universal LNB holder bracket is engineered to provide a secure and stable mounting solution for standard Low Noise Block downconverters. Built from high-quality, durable materials, it is specifically designed to withstand harsh outdoor environmental conditions. The mount features a precision adjustment mechanism that allows installers to optimize signal reception, making it suitable for both professional commercial satellite setups and residential installations.

Technical Specifications

Environmental Resilience

Outdoor Rated • Corrosion Resistant

Key Features

- Precision signal alignment adjustment
- Universal dish mounting compatibility
- Robust hardware for secure locking
- Weatherproof construction

Compatibility

Standard LNBs, Universal Dish Design
