

Saturated Vapor Steam Cleaning Machine

This saturated vapor cleaning machine offers a wide range of applications for cleaning equipment and work pieces, including items with gaps and tiny holes. The machine provides very high cleanliness and surface adhesion without requiring chemical media.

Product Overview

Industrial Saturated Vapor Cleaning

This saturated vapor cleaning machine is designed for efficient maintenance of equipment and precision cleaning of small batch or multispecies parts. It utilizes high-pressure drying steam to effectively remove oil stains, rust, adhesive residues, and other contaminants from surfaces. Operating with minimal water usage and zero emissions, this solution is a sustainable, eco-friendly choice for demanding industrial environments.

Model Comparison Table

Model	Heating Power	Vapor Amount	Water Consumption
CG18SEL+D	18KW	25kg/h	25L/h
CG36SEL+D	36KW	50kg/h	50L/h
CG72SEL+D	72KW	100kg/h	100L/h

Standard Configuration

Included Components

- 75cm spray long gun
- 25cm spray short gun
- Control handle (4m, 6m, or 8m depending on model)
- Stainless steel construction
- Mobile wheel chassis

Compliance

Key Features

Zero emissions, Eco-friendly, Corrosion resistant, Portable, Industrial grade
