

Sausage Clipping Machine

This machine is designed for closing and clipping sausages of various types and sizes. It ensures consistent and secure closures, which helps maintain product quality and extend shelf life.

Overview

Professional Sausage Clipping Solution

This sausage clipping machine is engineered for efficient and secure closing of various sausage types. Designed for demanding production environments, it provides consistent seals that enhance product quality and extend shelf life. Its robust construction ensures reliable performance, making it an essential tool for maintaining high standards in food processing applications.

Technical Specifications

Clipping Speed

0.5 times/Min

Minimum Speed

0.7 times/Min

Maximum Speed

Casing Range

0.7 mm

Applicable Wire Material

Aluminum Coil

Electrical & Physical

Rated Voltage

220 V

Machine Weight

0 Kg
