

# SC Copper Wire Terminals

SC copper wire terminals ensure secure and reliable electrical connections. Constructed from pure copper, these terminals offer excellent conductivity and corrosion resistance.

## ADDITIONAL IMAGES

## Product Overview

### Professional Copper Tube Terminals

These high-quality cable lugs are engineered for the reliable connection of copper conductors ranging from 1.5mm<sup>2</sup> to 1000mm<sup>2</sup>. Constructed from 99.99% pure T2 copper and tin-coated, they offer exceptional electrical conductivity and superior corrosion resistance. Designed to perform in demanding environments, these terminals are suitable for power distribution, grounding, and various electrical equipment wiring applications.

## Technical Specifications

Operating Temperature Range	-55°C to 150°C
Material Composition	99.99% Pure T2 Copper with Tin coating
Conductor Capacity	1.5mm <sup>2</sup> - 1000mm <sup>2</sup>

## Compliance and Standards

### Supported Standards

- Japan JIS standard
- German DIN standard
- American AWG standard

Safety Certifications	CE, UL, RoHS, ISO 9001:2015, IATF16949
