

School-Home Communication Platform

This system enables parents to receive timely updates on their children's activities and progress. Teachers can provide immediate feedback to parents through the platform.

Overview

Seamless School-Home Collaboration

This communication platform bridges the gap between educators and families by enabling real-time information exchange. Parents gain immediate insights into their children's activities and academic progress, while teachers can provide instant feedback. Designed for multi-channel accessibility, the system ensures consistent connectivity between school and home environments.
