

Scooter Engine with Automatic Transmission

This high-performance engine is designed for scooters and small vehicles. It features a compact design, electric starter, and smooth automatic transmission.

Product Overview

High-Performance Scooter Engine

This high-performance engine is engineered specifically for scooters and small vehicles, featuring a compact design with a horizontally oriented cylinder. Constructed from a lightweight aluminum alloy, it ensures both durability and efficient heat dissipation during operation. Equipped with a smooth-shifting automatic transmission and a reliable electric starter, it is an ideal solution for upgrading or replacing existing powertrains.

Technical Specifications

Transmission Type

Automatic

Cylinder Orientation

Horizontal

Casing Material

Aluminum Alloy

Performance Features

Key Features

- Optimized air intake system
- Low-emission exhaust design
- Electric starter included
- Lightweight construction

Application Suitability

Scooters, Small Vehicles, Replacement Engine, Upgrade
