

Scrolling Light Box Display with Wheels

This free-standing display features a scrolling light box. It has a black frame and base with caster wheels for mobility and is designed for indoor advertising.

Product Overview

Versatile Scrolling Light Box

This professional-grade scrolling light box display offers a dynamic solution for retail, trade show, or indoor promotional environments. Featuring integrated LED illumination, it brings graphic advertisements to life with high visibility and movement. Designed for ease of use, the unit is mounted on caster wheels, allowing for effortless relocation and positioning within busy commercial spaces.
