## ADDITIONAL IMAGES

## Product Overview

### High-Performance AC Compressor

The SD508 5H14 automotive AC compressor is engineered for reliability and efficient cooling performance in automotive air conditioning systems. This unit features a robust 12V power supply and an integrated 1A pulley clutch system for seamless engagement. Designed for compatibility with standard 508 and 5H14 configurations, it includes essential components such as the clutch hub, pulley, coil, and bearing to ensure a complete and ready-to-install solution.

## Technical Specifications

Model Compatibility	SD508, 5H14
Voltage	12 V
Pulley Type	1A

## Included Components

### Kit Contents

- Clutch Hub
- Pulley
- Coil
- Bearing
