

# SDS Adapter with 1/2"-20 UNF Thread

SDS adapter equipped with a 1/2"-20 UNF thread for connecting tools to SDS rotary hammer drills. It provides compatibility for drilling and fastening applications by allowing the use of standard threaded tools with SDS chucks.

## Product Overview

### Versatile SDS Adapter

This SDS adapter is designed to bridge the gap between specialized SDS rotary hammer drills and standard threaded accessories. Featuring a 1/2"-20 UNF thread, it allows professionals to expand the utility of their existing power tools by enabling the use of standard chucks and accessories. It is an essential component for increasing versatility in drilling and fastening applications on the job site.

## Technical Specifications

### Primary Applications

- Drilling
- Fastening

Thread Specification	1/2"-20 UNF
Compatibility	SDS Rotary Hammer Drills, Standard Threaded Tools
Model Identifier	FC 1501
