

SDS-plus Flat Chisel for Concrete and Masonry

This SDS-plus flat chisel is designed for efficient material removal in concrete and masonry. Constructed from alloy steel and sand blasted for durability, it is compatible with SDS-plus rotary hammers.

Product Overview

Professional Grade Flat Chisel

This SDS-plus flat chisel is engineered for high-performance material removal in concrete, stone, and masonry applications. Crafted from durable alloy constructional steel with a sand-blasted finish, it offers exceptional longevity and resistance to wear. The precision-ground cutting edge ensures efficient demolition and breaking tasks, while its compatibility with standard SDS-plus rotary hammers makes it an essential tool for professional construction and renovation projects.
