

Segmented Diamond Saw Blade for Stone and Concrete

This segmented saw blade is suitable for fast, free, smooth cutting of tile, bricks, concrete, marble, and stone. It is compatible with angle grinders, circular saws, masonry saws, and table saws.

Product Overview

High-Performance Segmented Diamond Saw Blade

This professional-grade segmented diamond saw blade is engineered for efficient cutting of concrete, stone, and masonry materials. Featuring advanced laser-welded diamond grit segments, it ensures superior durability, high cutting speeds, and excellent heat dissipation. Designed for versatility, this blade is suitable for both wet and dry cutting applications and is compatible with standard angle grinders and circular saws.

Key Features

Compatibility

Concrete, Stone, Masonry, Wet Cutting, Dry Cutting

Technical Specifications

Model Dimensions

Model	Diameter (mm)	Bore (mm)	Thickness (mm)	Seg. Height (mm)
