

Segmented Rim Diamond Cutting Disc

This diamond cutting disc is designed for cutting and grinding various materials. It features a segmented rim for efficient material removal and cooling and is suitable for use with angle grinders and similar power tools.

Overview

High-Performance Cutting Solution

This segmented rim diamond cutting disc is engineered for efficient material removal and cooling during operation. Designed for compatibility with angle grinders, it provides a robust solution for cutting and grinding various construction materials. The segmented rim design ensures durability and consistent performance in demanding environments.

Technical Specifications

Available Sizes (Diameter x Thickness x Bore)

Diameter	Thickness	Bore
115	7	22.2
125	7	22.2
150	7	22.2
180	7	22.2

Model Number	WT0304049
--------------	-----------

Design Features

Rim Design

Segmented Rim • Turbo

Primary Applications	Cutting, Grinding
