

Segmented Rim Diamond Saw Blade

This diamond saw blade is designed with diamond inserts for extra blade protection. Its segmented rim ensures efficient debris removal and optimal cooling during cutting.

Product Overview

Versatile Diamond Saw Blade

This segmented rim diamond saw blade is engineered for high-performance cutting across a variety of demanding materials, including concrete, refractory bricks, clinkers, and abrasive surfaces. Its segmented design facilitates efficient debris removal and consistent cooling during operation, ensuring a longer service life. Designed for reliability, it is an essential tool for professional construction and masonry applications.

Technical Specifications

Available Diameters

- 105mm
- 115mm
- 125mm
- 180mm
- 230mm

Compatible Materials	Concrete, Refractory Bricks, Clinkers, Abrasive Materials
Blade Type	Segmented Rim
