

# Self-Adhesive Rubber Seal for Automotive Use

This rubber seal features a self-adhesive backing for easy installation in automotive applications. It provides a tight, long-lasting barrier against water, wind, and noise for sunroofs, doors, and windows.

## Product Overview

### Professional Grade Sealing Solution

This high-quality self-adhesive rubber seal is engineered for versatile use across automotive, industrial, and architectural applications. Designed to provide a tight, long-lasting barrier, it effectively guards against water, wind, and noise intrusion. The integrated self-adhesive backing ensures a rapid and reliable bond to a wide range of surfaces for seamless installation.

## Technical Specifications

Adhesive System	3M Self-Adhesive Backing
Material Composition	Durable Industrial Rubber

## Applications

### Automotive Applications

- Door seals
- Truck weather stripping
- Window seals
- Sunroof seals
- Wheel well spacers

### Building & Construction

Component	Application Type
Curtain Walls	Frame Sealing
Garage Doors	Weatherproofing
Egress Windows	Edge Protection
Containers	Drums and Safes

Industry Sectors	Railcars, Industrial Electrical, Construction, Marine, Shipping Containers
