

# Self-Locking Nylon Cable Tie

Nylon cable ties provide a strong and reliable solution for bundling and securing cables and wires. These self-locking ties are suitable for a variety of applications.

## ADDITIONAL IMAGES

## Product Overview

### Self-Locking Nylon Cable Ties

These high-quality nylon cable ties are designed for secure and efficient bundling of wires, cables, and other industrial components. Engineered from durable Nylon 66, they offer excellent heat resistance, insulation, and longevity in various environments. With a self-locking mechanism and broad compatibility across electrical, automotive, and general-purpose industries, these ties provide a reliable solution for organization and cable management.

## Technical Specifications

Material	Nylon 66
Flammability Rating	UL 94V-2
Temperature Resistance	-40°C to 80°C (Short term up to 140°C)
Standard Packaging	100 PCS

## Compliance & Standards

Certifications	ISO 9001, UL, CE, RoHS, REACH
----------------	-------------------------------

## Product Dimensions

### Size & Strength Specifications

Item No.	Length (mm)	Width (mm)	Bundle Dia. (mm)	Tensile Strength (kg)
HT-2.5x60	60	2.5	2-11	8
HT-2.5x80	80	2.5	2-11	8

## Features & Applications

### Key Features

Heat-resisting • Erosion control • High insulation • Self-locking • UV resistant options

### Ideal Applications

- Color coding
- Wire identification
- Packaging continuity
- Bundling aesthetics
- Electrical & Lighting
- Pharmaceutical & Chemical
- Computer & Electronics
