

# Self-Locking Nylon Cable Ties

These cable ties are made from durable nylon and feature a self-locking head. The ratchet mechanism allows for adjustable tension and a secure hold for organizing items.

## Product Overview

### Professional Self-Locking Cable Ties

These professional-grade, self-locking nylon cable ties are engineered for secure and efficient cable management. Constructed from high-quality Polyamide 6.6, they offer excellent tensile strength and durability. Designed to withstand diverse environmental conditions, these ties are essential for industrial and commercial bundling applications.

## Technical Specifications

Material Composition	Polyamide 6.6, Carbon Black, UV Resistant
Flammability Rating	UL 94 - V2

## Performance Metrics

### Operating Temperature

<b>-40 C</b> Min Operation	<b>85 C</b> Max Operation
-------------------------------	------------------------------

Max Short-term Temperature	110 C
----------------------------	-------

## Compliance & Approval

### Certifications

UL E258930 • TUV • DNV-GL • EN 62275 • REACH • ROHS • PAHS

## Chemical Resistance

### Chemical Resistance Table

Substance Type	Resistance Level
Bases, Oils, Greases	Good
Chloride Solvents	Good
Acids	Limited
Phenols	Not Resistant
