

Self-Locking Steel Measuring Tape 5m x 19mm

This steel measuring tape features an auto-lock mechanism for convenient and safe operation. Its special surface protects the case for extended durability.

Product Overview

Professional Self-Locking Steel Measuring Tape

This 5-meter self-locking steel measuring tape is engineered for durability and precision in professional environments. With a 19mm blade width, it offers superior reach and stability for construction, woodworking, and various DIY projects. The robust casing is designed for high resistance against striking, ensuring a long service life under rigorous conditions.

Technical Specifications

Blade Length	5 m
Blade Width	19 mm
Model Number	32G-5019

Features

Key Features	Self-Locking Mechanism, High-Impact Resistance, Easy-to-Read Scale, Long-Life Durability
