

# Self-Priming Centrifugal Water Pump

This self-priming centrifugal pump is designed for clean water transfer and pressure boosting in domestic applications. It features a robust motor and durable pump body for reliable performance, making it suitable for irrigation, water supply, and general-purpose pumping.

## Product Overview

### High-Performance Centrifugal Water Pump

This self-priming centrifugal pump is engineered for efficient clean water transfer and reliable pressure boosting. Designed with a robust motor and a durable pump body, it ensures consistent operation for various domestic and light commercial needs. It is an ideal solution for irrigation systems, water supply management, and general-purpose fluid handling.

## Technical Specifications

Pump Type	Self-Priming Centrifugal
Primary Applications	Clean Water Transfer, Pressure Boosting, Irrigation, Domestic Water Supply

## Key Features

### Performance Highlights

<b>1 High</b> Operational Reliability	<b>1 Robust</b> Durability Rating
--	--------------------------------------

### Construction

- Robust motor housing
- Durable pump body construction
