

Self-Priming Centrifugal Water Pump

This self-priming centrifugal water pump is designed for efficient water transfer in irrigation and drainage applications. It is suitable for pumping clean water from wells, tanks, and streams.

Product Overview

High-Efficiency Water Transfer Solution

This self-priming centrifugal water pump is expertly engineered for reliable water transfer in irrigation and drainage applications. Featuring a robust motor construction and a durable brass impeller, it ensures consistent performance when pumping clean water from wells, tanks, or streams. The unit is designed for simplified installation and low-maintenance operation, providing long-lasting service in demanding environments.

Technical Specifications

Pump Category	Self-priming Centrifugal
Impeller Material	Brass
Application Areas	Irrigation, Drainage, Well Water, Tank Transfer

Key Features

Maintenance and Design

- Easy installation procedure
- Durable housing construction
- Robust motor system
- Long-lasting operational lifespan
