

Self-Priming Centrifugal Water Pump for Pools and Spas

Self-priming centrifugal pump designed for swimming pool and spa applications. It features a high-performance motor for efficient operation and durable corrosion-resistant construction for long-lasting reliability.

Product Overview

High-Efficiency Water Circulation

This self-priming centrifugal pump is engineered specifically for demanding pool and spa applications. It integrates a high-performance motor designed for consistent, efficient water circulation and is built with corrosion-resistant materials to ensure long-term operational reliability. With its large-capacity strainer basket, this unit minimizes maintenance frequency, making it an ideal choice for both residential and commercial facility management.

Technical Specifications

Pump Type	Self-priming centrifugal
Target Applications	Residential Pools, Commercial Pools, Spas

Features

Core Advantages

- High-performance motor for efficient operation
- Large capacity strainer basket for reduced maintenance
- Corrosion-resistant construction
