

Self-Priming Electric Transfer Pump for Diesel and Oil

This self-priming electric transfer pump is designed for diesel and oil applications. It features a robust construction, alligator clips for power connection, a delivery nozzle with hoses, and an integrated flow meter.

Product Overview

Professional Fluid Transfer Solution

The YB1224BT is a robust, self-priming electric transfer pump engineered for the reliable handling of diesel and oil. Designed for versatility and ease of use, it features convenient alligator clips for rapid connection to 12V or 24V power sources. Integrated with essential accessories including a delivery nozzle, hoses, and an accurate flow meter, it serves as an ideal solution for high-demand environments such as construction sites, agricultural operations, and professional workshops.

Technical Specifications

Compatible Fluids

- Diesel
- Oil

Included Accessories

- Delivery Nozzle
- Transfer Hoses
- Integrated Flow Meter
- Alligator Clips

Voltage

12V, 24V

Industry Usage

Common Applications

Workshops • Construction Sites • Agricultural Settings
