Product Overview

High-Efficiency Garden Jet Pump

This self-priming jet pump is engineered for reliable water supply and pressure boosting in various domestic and irrigation applications. Featuring a robust stainless steel construction, it offers excellent corrosion resistance and long-lasting durability. The unit is designed for convenience and safety, equipped with a maintenance-free motor, thermal overload protection, and a portable carry handle.

Technical Specifications

Safety & Protection

- Overload thermal protector
- Double sealing system
- Waterproof switch
- Anti-corrosive hydraulic system

Motor Configuration

1 Phase, 3 Phase, 50Hz, 60Hz

Design & Build

Construction Highlights

Stainless Steel Body • Maintenance-Free Motor • Portable Handle • Rust-Proof

Applications

Suitable Applications

- Well water extraction
- Borehole water supply
- Garden irrigation systems
- Household pressure boosting
