

Self-Priming Jet Pump for Deep Wells

This self-priming jet pump is engineered for efficient water extraction from deep wells. It features robust construction and is suitable for various water pumping needs.

ADDITIONAL IMAGES

Overview

High-Efficiency Deep Well Solution

This self-priming jet pump is engineered for reliable water extraction from deep wells, making it an excellent choice for residential, agricultural, and industrial applications. Designed for continuous duty, it offers robust construction to withstand demanding environments. Its efficient design ensures consistent performance for various water pumping needs.

Operating Limits

Max Liquid Temperature	60 °C
Max Ambient Temperature	40 °C
Duty Cycle	Continuous

Key Features

Suitable Applications	Residential, Agricultural, Industrial, Deep Well
