

## System Details

### Booster System Components

- Water Pump
- Membrane Tank (20L)
- Pressure Gauge
- Pressure Switch

### Tank Specifications

20L Capacity, Horizontal Orientation, Non-toxic Rubber Membrane, Pre-filled 0.12 MPa Air

### Suggested Pressure Setting

1.2 - 2.5 bar

## Physical Dimensions

### Dimensions (L x W x H)

500 x 300 x 530 mm

## Installation Requirements

### Installation Environment

Covered Area Required • Weather Protected
