

Self-Priming Water Pump

This self-priming pump is designed for efficient water transfer. Its robust construction and powerful motor ensure reliable performance in various applications requiring suction lift.

Overview

High-Efficiency Water Transfer

This self-priming water pump is engineered for robust performance in demanding liquid transfer applications. With its superior suction lift capabilities and durable construction, it provides a reliable solution for professional water management. The unit is built to international quality standards to ensure consistent operation and longevity in various industrial or commercial settings.

Certifications

Compliance

ISO 9001-2000

Features

Key Features

- Self-priming mechanism for efficient operation
- Powerful integrated motor
- High-durability build quality
