

Self-Priming Water Transfer Pump

This self-priming pump is designed for water transfer and boosting applications. It features robust construction, ensuring durability and reliable performance for domestic, irrigation, and industrial use.

Overview

Professional Self-Priming Water Transfer Solution

The ZB series self-priming pump is engineered for high-efficiency water transfer and boosting applications across domestic, irrigation, and industrial sectors. Its robust construction ensures long-lasting durability and consistent, reliable performance in demanding environments. By utilizing advanced self-priming technology, this unit simplifies installation and operation by eliminating the need for manual priming.

Key Features

Suitable Applications

Domestic Water Supply, Irrigation, Industrial Processes, Water Boosting

Performance

Self-Priming

Yes

Design and Build
