

# Self-Propelled Articulating Boom Lift

This self-propelled articulating boom lift is designed for aerial work. It features a maximum working height of 16 meters and a horizontal outreach of 8.3 meters.

## Overview

### High-Efficiency Articulated Boom Lift

This electric articulated mobile elevating work platform is engineered for versatility and precision in aerial work environments. With a compact 1.75m wide chassis, it navigates tight spaces easily while maintaining stability. The intelligent control system ensures smooth operation, while the maintenance-free design reduces downtime and simplifies upkeep for professional operators.

## Performance Metrics

### Maximum Working Height

**16 m**

Working Height

Horizontal Outreach	8.3 m
Platform Capacity	230 kg

## Technical Specifications

Vehicle Width	1.75 m
Power Source	Electric Motor
Key Features	Proportional Controls, Non-marking Tires, Compact Design, Emission-free

## Safety & Control

### Safety Equipment

- Tilt Alarm
- Emergency Stop Buttons
- Overload Protection
