Overview

Versatile Aerial Work Platform

This self-propelled electric scissor lift is engineered for efficiency in both indoor and outdoor environments on flat, firm surfaces. It provides a stable and secure workspace for maintenance, construction, and installation tasks at heights up to 10 meters. The unit features a compact footprint for superior maneuverability in restricted spaces and is powered by an electric motor to ensure quiet, emission-free operation.

Key Performance

Working Height

10 m

Max Working Height

Operational Features

Control System	Proportional controls for smooth operation
Power Source	Electric, Emission-free, Quiet Operation

Safety & Compliance

Safety Features

- Emergency stop buttons
- Tilt sensors and protection
- Descent alarm
- Platform guardrails

Technical Specifications

Tires	Solid non-marking tires
Platform Design	Extendable platform for additional workspace
